

# JANITHA SANDANUWAN

## Software Engineer

**Address** : Sri Jayawardenepura Kotte

**Phone** : (+94) 78 3008 208

**Email** : janithasandanuwa@gmail.com

**LinkedIn** : linkedin/janithasandanuwan

**Portfolio** : thecn.com/JS3122

**GitHub** : github.com/sandanuwan99

## SUMMARY

Motivated Software Engineer with hands on industry experience in building scalable full stack applications using Java, Spring Boot, React, Next.js and SQL. Skilled in developing secure REST APIs, implementing Microservices architectures and applying Clean Architecture principles to design maintainable and scalable systems. Experienced in optimizing system performance and in DevOps practices including CI/CD pipelines with GitHub Actions and Jenkins, Docker, and cloud platforms such as AWS and Azure. Passionate about crafting reliable software solutions and collaborating in Agile teams to deliver high quality systems.

## WORK EXPERIENCE

- Associate Software Engineer – ICP Technologies** Feb 2026 - Present
  - Contributed to the development of fintech and insurance applications by designing and optimizing frontend and backend services using Spring Boot, Next.js, and MS SQL, ensuring secure and scalable policy, claims, and transaction processing.
  - Built and enhanced Dynamic CRM, a customer relationship management system, improving client engagement and business process automation.
  - Built Org Connect, an HR automation platform, reducing manual work by 60%.
  - Developed automated PDF and Excel report generation for Insta360, POS, and HR Management systems using Java, Spring Boot, MS SQL Server (Stored Procedures), OpenPDF (iText), and Apache POI, improving reporting accuracy and reducing manual effort.
  - Integrated solutions into enterprise ecosystems using Azure DevOps CI/CD pipelines, improving release efficiency and reliability.
- Software Engineer – Intern ICP Technologies** Sep 2025 – Feb 2026
  - Worked on enterprise-level Insurance ERP system development including Claims Management, Underwriting, Policy Management, Reinsurance, Finance, and Reporting modules. Contributed to backend API development, frontend UI enhancements, reporting systems, and product configuration features using Spring Boot, React.js, TypeScript, SQL Server, and REST APIs.
  - Built Org Connect, an HR automation platform, reducing manual work by 60%.

## PROJECT EXPERIENCE

- Insta360 - Insurance (Web, iOS & Android Apps)** 2025

Contributed to the development of an insurance application at ICP Technologies, focusing on secure, scalable backend services supporting product management, policy management, claims processing, and accounts.

**Role:** Full Stack Developer **Technologies :** Spring Boot | Next.js | MSSQL | Azure DevOps
- Dynamic CRM (Web Application)** 2025

Engaged in the development of a customer relationship management system at ICP Technologies, implementing backend modules to enhance client engagement, business process automation, and data consistency.

**Role:** Full Stack Developer **Technologies :** Spring Boot | Next.js | MSSQL | Azure DevOps
- Org Connect (Web , iOS & Android Apps)** 2025

Collaborated with a talented team at ICP Technologies to develop an application designed to automate HR processes of businesses, and organizations.

**Role:** Full Stack Developer **Technologies :** Spring Boot | Next.js | MSSQL | Azure DevOps
- Hotel Management System [Link](#)** Ongoing

Microservices /cloud Native Architecture project

Building a full-stack hotel management system with micro frontends, Spring Boot microservices, Java, MySQL, and Tailwind CSS. Implemented CI/CD with GitHub Actions and Docker, presented a Scalable architecture at the university tech symposium.

**Role:** Full Stack Developer **Technologies:** Spring Boot |React| Java 21 | Angular | MySQL
- DevOps with AWS Training & Hackathon [Link](#)** 2024

**Virtusa & CSUP (Team Project)**

Participated in the Code to Cloud: DevOps with AWS training series organized by Virtusa and the Computer Society of the University of Peradeniya. Engaged in the AWS Rush Hour – 98 mins Hackathon, showcasing practical DevOps skills under time constraints.

## SKILLS

### TECHNICAL SKILLS

- **Programming Languages**  
JavaScript(TypeScript), Java, Python, C
- **Libraries & Frameworks**  
Spring Boot, Angular, React, Next.js, React, Bootstrap, MUI
- **Cloud & DevOps**  
AWS (EC2, S3, Lightsail, Kubernetes, Lambda), Jenkins, CI/CD pipelines, AWS Codepipeline , Azure DevOps
- **Databases**  
MSSQL, MySQL, MongoDB, Postgresql
- **Version Control**  
Git, GitHub
- **State Managements Tools**  
Redux Unit Testing ,

### Linux/OS

- Linux administration (Ubuntu, Amazon Linux)
- Command line, file system, permissions, users/groups
- Package management (APT, YUM)
- Shell scripting & process/service management
- Networking (SSH, configuration, troubleshooting)
- Server administration (NFS, Samba)
- Containerization: Docker & Kubernetes (basics)
- Open-source tools: Grafana, Nagios, Graylog, Ansible

### SOFT SKILLS

- Time Management (balanced university coursework with hotel and chemical system projects) Openness
- (incorporated team feedback to improve CI/CD pipeline with GitHub Actions)

## CERTIFICATIONS

- JavaScript and TypeScript: Full-Stack Web Development. [Link](#)
- Java 21 Programming Masterclass: Fundamentals for Beginners. [Link](#)
- Angular for Beginners: From Basics to Advanced Projects. [Link](#)
- AWS Educate Getting Started with Storage. [Link](#)
- AWS Educate Introduction to Cloud 101. [Link](#)

## EDUCATION

- **BSc (Honours) in Statistics and Operations Research** **2021 – 2025**  
**University of Peradeniya, Sri Lanka**  
Relevant Coursework: Object-Oriented Programming (Java), Data Structures, Database Management Systems, Web Programming, Algorithms, Artificial Intelligence, Deep Learning and Neural Networks, Machine Learning, Regression Analysis, Linear Algebra, Time Series, Probability
- **Diploma in Software Engineering, Institute of Developers Stack, Sri Lanka** **2024**  
Web Software Construction (JavaScript), Object-Oriented Programming (Java), Database systems: MySQL, PostgreSQL, MongoDB, SQL Server. Cloud computing and DevOps with AWS, Docker, Kubernetes, Jenkins, GitHub Actions, and Terraform. Architectures & System Design – Monolithic vs. Microservices, DDD, Event-Driven Design
- **DevOps/TechOps Industrial Expert Masterclass Course IDET (Institute of Digital Engineering Technology), Sri Lanka** **2025**  
Covered Linux fundamentals, system administration, shell scripting, networking, server setup (NFS, Samba), open-source tools (Grafana, Ansible, Jenkins), and containerization with Docker & Kubernetes.
- **Dharmapla College Bandarawela**  
District Rank: 69 (Physical Science Stream)

## EXTRACURRICULAR

- **Hackers' Club Developer Session (2025)**  
Co-organized a peer-led workshop series on Web, Mobile Development, ML. Department of Computer Engineering.
- **Organizer(Statistical Society) 2021 – 2023**  
Statistical Society Event Organizer, University of Peradeniya
- **Wrestling Team Member, University of Peradeniya**  
Secured 2nd place in the Inter-Faculty Wrestling Championship 2024.
- **Sub Committee Member – Geethanjali Event (2022)**  
Contributed to the planning and coordination of cultural and musical events to support the 'Nenasara' fundraising initiative
